3 DAYS ONLY! Feb. 24 - Feb. 26, 2012

Our business began in 1983 in a little store front down the street. Dwight Thompson, our company's founder, sold new and used furniture, appliances, tools and everything in between.

Being the hardworking businessman Dwight was, he knew the only way to attract customers was great prices and great customer service. He instilled these values in his son, showing him not only how to run a successful business but how to make customers feel valued and appreciated. Unfortunately, Dwight is no longer with us as he passed away in August, 2006. However, his spirit and values live on through his family, as son Paul now owns the business, with hopes someday his daughter Bethany will continue the vision and legacy of Susies Furniture.
