

September 10th 2019

Dear Friend,

please
excuse my
handwriting...
this had to
go quick!

My family has been in the furniture business for over 38 years. 2019 marks the highest level of furniture production I have ever seen, but national retail sales have been mediocre. With this unprecedented oversupply and low demand many world class manufactures including Ashley, La-Z-Boy and Restonic Mattresses have offered us some tremendous wholesale discounts. I need your help, we may have committed to purchase more than we should have and now **must sell over \$1,000,000** of furniture manufacture buyouts. I would like to personally present you with some incredible last-minute offers.

It's possible that you may have put a hold on purchases for your home until later but don't because I am going to do this for you

Let's make a Deal!

If you are even considering new furniture, or mattresses this year then lets make a deal! You buy now instead of later and I promise I will make it worth your while.
